

2. Gushli Peptide Sealer

Elevate your post-treatment haircare routine with Gushli Peptide Sealer, designed specifically for chemically treated hair.

- **Repair and Restore:** Infused with ceramide and nutrient-rich baobab oil, it penetrates deeply to repair and fortify damaged strands from the inside out.

- **Seal and Protect:** Locks in essential hydration, smooths cuticles, and provides robust protection against frizz and environmental aggressors.

- **Shine and Smoothness:** Revives dull, lifeless hair, leaving it soft, radiant, and full of life.

- **Advanced Benefits:** Intensive hair repair, reversal of chemical damage, and visibly thicker, denser, and fuller hair with every use.

Gushli Peptide Sealer, you can give your hair the care it needs to recover and maintain its beauty.

Hydrolyzed Vegetable Protein:

Smaller peptides and amino acids derived from vegetables that can penetrate the hair cortex, providing internal strength and reinforcing the hair's structure.

This product is to be applied by professionals only.
